

Can CALIFA tell us something about the cosmic evolution of the star formation rate and stellar mass of the Universe?

Rosa González Delgado (IAA)

A multi-frequency study of the SFHs of galaxies in the integral field area survey CALIFA

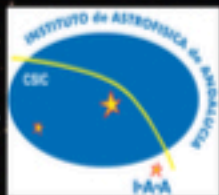

Rafael López Fernández
29/09/2017

Tesis doctoral

Instituto de Astrofísica de Andalucía (CSIC)
Universidad de Granada

Directores:
Rosa María González Delgado
Roberto Cid Fernandes

E. Pérez (IAA)
R. García-Benito (IAA)
R. Cid Fernandes (UFSC)

Integral Field Spectroscopy of (U)LIRGs and PSQSOs: the role of mergers in galaxy evolution

Clara Cortijo Ferrero

Tesis doctoral

Instituto de Astrofísica de Andalucía
Universidad de Granada
Directora: Dra. Rosa M^a González Delgado
